

THE CHRONICLE.

VOL. XVIII. No. 12

CROSSFIELD, ALBERTA, THURSDAY, APRIL 23rd, 1926.

PRICE \$1.50 A YEAR.

In a New Store-
With a Brand New Stock -
With more Display Room than
we ever had -
With Better Accomodation for
THE PUBLIC -
With more help -
We Can Now Give You
REAL SERVICE.

Whether You Purchase or Not,
 We Want To Show You
 Our New Place.

Come In And Look Us Over.

William Laut.
 Groceries. Hardware, Implements.

Robert Ure M.A., LL.B.
 Barrister, Solicitor, Notary,
 has opened a Law office in Cross-
 field, where he attends every day
 for the general practice of the Law.
 Farm Loans and Insurance.
 Phone 53, Crossfield.

DENTIST

Dr HARVEY D. DUNCAN,
 400-410 Herald Building, Calgary.
 has opened a Dental Office over Havens'
 Garage, Crossfield, for Friday and Sat-
 urday of each week, employing the
 latest Dental methods in all its
 branches.

Local and General

Don't forget the Big Confetti
 Dance and Box Social, under the
 auspices of Crossfield Tennis Club,
 in Havens Hall, on Friday, April
 24th.

Mrs. S. Willis and daughter
 Gladys spent the week end in Bow-
 den visiting her daughter Isabel,
 returning home on Sunday.

Mrs. J. R. Gilchrist returned
 home from Calgary on Sunday last,
 bringing home her baby girl.

Mrs. E. W. Willis, accompanied
 by her sister, returned home on
 Tuesday last, after spending a few
 days visiting in the north district.

Mrs. Pogue is spending a few days
 in Calgary, she has not enjoyed the
 best of health of late and is under-
 going medical treatment in the city.

We are pleased to see Mrs. C. C.
 Smart around again after about
 three weeks sickness.

Mrs. D. J. MacKay was a Calgary
 visitor on Saturday last.

For Sale.—Crossfield grown Per-
 ennials, in aid of the Union Church
 Piano Fund. Leave orders with
 McKory.

We beg to announce that Radio
 Licenses are to be had at the Radio
 shop this year, instead of sending
 to Calgary as previously. There is
 no gain in this for us, but we feel
 it is more convenient for you and
 may therefore eliminate an annoy-
 ing fine.

If the Radio Shop does not yield
 to the turn of the latch look next
 door. There are busy Service Garage
 days, and the Radio man will be
 found there if not in his own abode,
 just as interested in Radio as ever.

For Sale.—About 1000 bushels
 of Good Seed Oats. 50c per bushel
 Telephone 309, Crossfield.

REPOSE

TEA "is good tea"

And most grocers recommend it.

Taxation and Obligations

Instant demands continue to be made in many quarters upon the Dominion Government to follow certain financial and economic policies which may be briefly summed up under the following headings:

1. Reduce the Income Tax.
2. Reduce the tariff.
3. Reduce railway freight rates.
4. Reduce ocean freight rates.
5. Reduce all national expenditures.
6. Lower the rate of letter postage.
7. Commence paying off the national debt.

Equally instant demands are made upon the Government at Ottawa to:

1. Provide more employment.
2. Develop natural resources.
3. Increase immigration to promote such development.
4. Construct great public works.
5. Build the Hudson Bay Railway and various branch lines.
6. Develop the St. Lawrence Canada and power schemes.
7. Increase the tariff to encourage home industries and increase employment.

Inasmuch as one set of demands is, in many respects, destructive of the other set, it is at once apparent that the Finance Minister has a real problem on his hands in endeavoring to steer a straight course for the ship of state. He cannot please all and it would be worse than useless to make the attempt. At the same time it must be recognized, and it is generally recognized, that Canada cannot go on indefinitely without making a serious attempt to pay off its huge national debt which now rests like the dead weight of a wet blanket on the country, depressing industry, creating unemployment, and retarding development. With the exception of the demand for the reduction of the tariff, in regard to which there is a sharp difference of opinion, people as a whole would welcome and support all the demands enumerated in the first list mentioned above.

But how is taxation to be reduced in any effective degree and at the same time substantial payments made on account of the national debt? How are freight rates to be lowered and at the same time the deficit on the National Railways wiped out? How can national expenditures be substantially decreased and at the same time policies inaugurated for the development of natural resources, the construction of railways and other public works, and work created so as to do away with unemployment?

When urging reduction in taxation it must always be born in mind that to meet interest charges on our war debt Canada requires to raise a larger sum annually than the whole budget of the Dominion Government some years ago. In addition many other millions are required annually to pay pensions and otherwise provide for disabled soldiers. Costs of government, like the cost of everything else, is greater today than was the case ten years ago.

Nevertheless, the picture is not as dark as it may at first glance appear. While Canada's import trade has fallen in the last year or two, with a consequent marked decline in Customs revenues, the export trade of the Dominion is steadily and even rapidly rising, which means that we are buying more at home and selling more abroad. In other words, Canada is becoming a more self-contained and self-supporting country, and this makes for national strength and future wealth and prosperity.

Unquestionably there are still many ways in which national expenditures can be reduced through the consolidation of government services, with consequent elimination of overlapping and duplication of services and much waste.

The Civil Service at Ottawa is admittedly over-manned. In tackling this problem the Federal authorities may well take a leaf from the economy book of the Coolidge Administration at Washington.

The main lesson for the people of Canada to learn, however, is that for this time being they must forgo the additional public works and services which can only be provided through large public expenditures. True, such constructive enterprises would provide temporary employment, but it would be only temporary, while the new debt thus created would not only defer the day of debt reduction, but would increase the present high weight of that debt. Money should only be expended on revenue producing services which will carry their own interest charges and add something to the general revenue and advancement of the country.

There is need for economy everywhere, but there is still greater need for hard work on the part of each individual citizen, productive work that will result in still further increasing the export trade of the Dominion and provide increasing traffic for our railways. Instead of holding out for the last dollar in profits and wages, Canadian manufacturer and workmen must be willing to accept a little less and give a full day's output in service and work. Only by so doing will conditions be developed which will mean more work, better pay, permanent development, and ability to carry and discharge our national obligations.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Spanish Women Seek Education

Work Much More Brilliant Than That of Men

Spanish women, albeit slowly, are seeking higher education. During the academic year that ended in 1923 there were 363 female students at the institutions as against 40 in 1917.

Pharmacy attracted 128 women, philosophy 105, science 78, medicine 46, and the law 6. They are good students, and their work is much more brilliant than that of the men, according to the university authorities.

"DIAMOND DYES"

COLOR THINGS NEW

Beautiful home dyeing and coloring is guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

"Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Saskatchewan Golf Tourney

The Moose Jaw Golf Club executive has recommended to the provincial association the holding of the provincial tournament at Moose Jaw for the week of August 10, and that F. R. Nason, of Moose Jaw, be the tournament secretary.

UNSURPASSED FOR CHILDHOOD ALMONTS

Mrs. Howard King, R.R. No. 5, Truro, N.S., says:—"I am the mother of four children and have always used Baby's Own Tablets."

When a child has a cold, I can recommend the Tablets as being unsurpassed for childhood ailments. The Tablets are always kept on hand in readiness for the least sign of any of the minor ailments which afflict little ones. Baby's Own Tablets never fail to regulate the stomach and bowels, thus they banish constipation and indigestion; break up colds and simple fevers; relieve colic and bring the baby through that dreaded teething period in safety. The Tablets never do harm—always good—they are guaranteed absolutely free from any injurious drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Claim Medical Discovery

Dr. Martha Jones, research associate of the department of pediatrics at the University of California Medical School, claims the discovery of a cure for rickets. It consists of giving by drocholic acid in small amounts in a patient's milk. The discovery resulted from finding that acid reduced the malady in puppies.

The ears, with which corns and warts can be removed by Holloway's Corn Remover in its strongest recommendation. It seldom fails.

Many Canadians Return

Coming Back From the United States

In Large Numbers
Immigration to Canada, during February, amounted to 2,310, an increase of 293 over the previous month, according to a statement issued by the department of immigration and colonization. Of the February arrivals, 542 were British, 800 from the United States and 968 from other countries. Canadians returning from the States after having been in that country for six months or over, and declaring their intention of remaining in Canada permanently, totalled 2,012. Since the beginning of the fiscal year the number of such returning Canadians is 41,044.

Japs Stop Work

Japan has suspended the work begun on the electrification of about 440 miles of government owned railways.

For Sore Feet—Minard's Liniment.

SUNDAY SCHOOL LESSON

APRIL 19

LIFE IN THE EARLY CHURCH

Golden Text: The multitude of them that believed were of one heart and soul. Acts 4:32.
Lesson: Acts 4:1 to 5:11.
Devotional Reading: Psalm 132.

The Text Explained and Illumined
Christian Unity, Acts 4:32-35. There was the greatest unity of feeling and purpose in the early Christian Church, as the proverbial expression has it, they were of one heart and soul.
"My own idea of a church is a great religious democracy, where the rich and the poor, the educated and the ignorant, the cultured and all others, gather to worship and commune with a Being so far exalted as to make relative human conditions unmentionable, unthinkable, and unnoticeable in its presence" (Leslie M. Shaw).

Settled on the northwestern shore of the Dead Sea, and living in scattered communities throughout Palestine at this time, were the Essenes, a sect that literally had all things common. Each one deposited whatever he possessed in a general treasury, of which several managers took charge, supplying from it the needs of all. In Egypt there was a Jewish sect called the Therapeutae whose members gave away all their possessions when they joined the order, and there was among them no distinction of rich or poor. It is said of the disciples at Jerusalem that "not one of them said that aught of the things which he possessed was his own; but they had all things common." With them, however, the giving up of possessions was voluntary (5:4)—each one regarded his property as held in trust for others. Property was sold and the money placed at the disposal of the apostles only as some rich and generous member saw there was need.

You Have to Know How

A Manitoba farmer brought 22 head of feeder steers ten months ago. He sold them the other day after spending \$28 per head on feed, at a net profit of \$28 per head. The farmer who doesn't know how will say this was a case of luck. The truth probably is that the Marlboro farmer won out in a bad cattle year because he knew how to buy in the first place and how to feed and finish cattle in the second place. Not every farmer does—Calgary Herald.

The Oil for the Farmer—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Youthful Farmers in Alberta

Sixty British boys who have been learning farming at the Vermilion agricultural school, have been sent out to various farms in Alberta for practical experience.

Minard's Liniment for Colds

Twenty-six per cent. of the painful workers in Philadelphia in 1920 were women.

Dead Germans Found

In Scuttled Destroyer

Officers and Sailors Evidently Not Warned When Fleet Was Sunk
Workmen engaged in breaking up the scuttled German destroyer, beached in Mill Bay, Scapa Flow, have discovered under the mass of wood, which completely concealed them, the bodies of five German officers and sailors. They evidently were not warned at the time the fleet was sunk by the German crews.

Nothing Else Builds

Him Up So Much

So Says Mr. Allan McMullin of Dodd's Kidney Pills

Nova Scotia Man Was Unable to Move in His Bed, But Dodd's Kidney Pills Brought Him Relief.
"Up of my back, I was unable to move in my bed. I was suffering with rheumatism, lumbago and pains in my back. I could not rest day or night. I had to turn myself in bed with straps. After the first box of Dodd's Kidney Pills I noticed a great improvement. I am sorry I did not start taking them ten years ago. I will never be without them if I can get them. I cannot find anything which builds me up so much."

It is statements like the above that have made Dodd's Kidney Pills a household remedy throughout Canada.

Reaps Good Results

J. H. Anderson, a farmer near Marsh, Alberta, reports that his income from a forty-acre field of wheat in the 1924 season was \$2,000, or \$50 an acre.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unvaluable, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

Love and Not Fear

The Bishop of London says that it would be almost come now to hear a sermon about hell. Which means that the basis of religion is at last being interpreted as love and not fear.

FOR Rheumatism

Proved safe by millions and prescribed by physicians for

Rheumatism Colds
Headache Pain
Neuralgia Toothache
Lumbago Neuritis

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monnetville, Switzerland (Aspirin Bayerische Akt., "A. S. A."). Where it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

LOCAL AND GENERAL

There will be a special meeting of Crossfield Lodge I.O.O.F. No. 42, on Friday, May 1st. Calgary Degree Team will be present for the purpose of conferring The First Degree.

All Brothers are requested to attend on this date.

FORM "C" Notice of Sale

NOTICE is hereby given under section 48 of The Domestic Animals Act (Municipalities) that Onebay mare, whistestripe on face, branded **W** left shoulder was impounded in pound kept by H. Gano, located on the N.W. 1/4 Sec. 21, Twp. 28, Rge. 3, W. of 6, on the 24th day of March, 1925, and that said animal was sold on the 4th day of April 1925, to J.H. Havens, of Sampsonston, Alta., and that said animal may be redeemed by the owners or on their behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchasers of said animal.

For information apply to the undersigned.

G. B. HUNTER, Sec. Treas., of the Municipality of Beaver Dam, No. 281, Post Office: Dog Pound, Alta.

WEEKLY NEWS BULLETIN

Splendid Price for Alberta Dedentures.

Further evidence that Alberta Provincial Bonds still stand high in the financial markets, was given the past week, when the Treasury Department of the government disposed of an issue of \$3,740,000 five per cent., 25 years for refunding purposes, to the National City Company, of New York, at a price of 99.159, which was considered a most satisfactory price. The sale was made through the Bank of Montreal, acting for the purchasers. There were six bidders for the bonds. Keen interest centred about the sale of the issue, the Montreal Financial Times remarking that the price received would be an indication of the whole trend of the financial market.

Annual Convention Women's Institutes

The annual convention of the Alberta Women's Institutes will be held at the University of Alberta, on May 26, 27, 28 and 29 next.

Plan Drive for Members for Pool
Executives of the three new pools now being organized, to market dairy, livestock and poultry products co-operatively, plan to hold a provincial wide drive for memberships for the pools from June 8th to 28th next. Many signed contracts for the pools have already been received from farmers.

Annual Bull Sales

Annual bull sales took place recently at Calgary and Edmonton. The average price at Calgary was \$129.64 with 405 animals offered. At Edmonton the average was \$118 for 67 animals offered. The top price was paid for a Shorthorn calf, champion of the sale, bred by Dr. Talbot, and sold for \$350.

Alberta Officials Honoured.

Dean Howes of the Alberta College of Agriculture has been elected president of the dominion organization of Technical agriculturists, and G. M. Stewart, the Dominion Seed Branch Representative in Alberta, has been elected president of the Alberta branch of the organization. The next dominion convention of the organization will be held in Edmonton, on June 24, 25 and 26.

Let us forget--Yesterday, Wednesday, the 22nd April, was the 10th anniversary of the death of our gallant Lieut.-Col. R. L. Boyle who was killed in action at the battle of St. Julien.

LORD CHUMLEY

The picture to be put on in Havens Hall next week is Lord Chumley. There's action. There are thrills galore. There are breath-taking stunts and there are laughs, laughs, LAUGHS!

You see-Ray Griffith and Cyril Chadwick in a hand-to-hand battle on a runaway speed boat dizzily hurtling through the waves at a forty mile an hour clip.

Viola Dana, Griffith and Chadwick on a floating naval target while it is being shelled by the guns of the Atlantic fleet.

Miss Dana and Griffiths in a sinking dinghy that is suddenly lifted clear out of the water by a rising submarine.

The fun is laid in a ground work of mystery, action and melodrama that offers plenty of punch even if there wasn't a laugh in the picture

CARD OF THANKS

Mr. H. Brooker, Mr. and Mrs. J. Orum wish to thank relations, friends and neighbors for their kind expressions of sympathy and floral tributes during their recent sad bereavement.

H. BROOKER, Mr. & Mrs. J. ORUM.

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan
in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Captain Peter Blood is the terror of the Spaniards who sail the Spanish Main. He loves Arabella Bishop, niece of the governor of Barbados, who is aboard the Royal Mary which bears Lord Julian Wade to the West Indies to make peace with piracy. Lord Wade tells Arabella of Blood's reputation and that he is about to wed Madelon d'Orgon, daughter of the Dutch governor of Tortuga. The Spanish ship, Milagrosa, sinks the Royal Mary and Arabella and Wade are taken prisoners.

CHAPTER XVI.—Continued

Miss Bishop, newly risen, had come out to take the air on the quarterdeck, with his lordship in attendance, when she beheld the big red ship that had once been the Cinco Ligas out of Cadiz. The sight thrilled her curiously; it awoke in her an upspringing sense of pride that took no account of danger to herself in the encounter that must now be inevitable.

Beside her on the poop stood Lord Julian. But he shared none of her exultation. He had been in his first sea fight yesterday, and his first that the experience would suffice him for a very considerable time.

"Look," said Miss Bishop, pointing. Did she realize, he wondered, what was afoot. Her next sentence resolved his doubt. "She is English, and she comes resolutely on. She means to fight."

"God help her, then," said his lordship gloomily. "Her captain must be mad. If they could so easily blow the Royal Mary out of the water, what will they do to this vessel?" Look at that devil Don Miguel. He's utterly disgusting in his glare."

Of necessity now, under diminished sail, the advance of the Arabella was slower; but it was none the less steady. She was already within shaker's shot, and they could make out the figures stirring on her forecastle and the brass guns gleaming on her prow. The gunners of the Milagrosa raised their muskets and blew upon their smoldering matches, looking up impatiently at the admiral. But the admiral solemnly shook his head.

BETTER IN EVERY WAY

After Taking Lydia E. Pinkham's Vegetable Compound

Ingomar, N. B.—"I took your medicine for a run-down condition and inward troubles. I had pains in my right side so bad at times that I could not walk any distance. I saw about Lydia E. Pinkham's Vegetable Compound in the newspapers and have taken five bottles of it. I am better in every way and you can use my letter to help other women."—Mrs. ALVINA M. PERAY, Ingomar, N. B.

Nervous Breakdown Relieved

Toronto, Ontario.—"It is pretty hard to explain your feelings in nervous troubles. I felt low spirited, had pains in my head and eyes, always crying, and did not want to go anywhere. I do knitting and fancy work, and I would get terrible after a few minutes of work. I have been in Canada five years and have been this way ever since I came. I am taking Lydia E. Pinkham's Vegetable Compound and I sleep better and it seems to make me eat, and I must say I am feeling more jolly. I have great faith in your medicine because of what it has done for my husband's sister and she recommended it to me."—Mrs. A. SMITH, 10 Burleigh Avenue, Toronto, Ontario.

All druggists sell this dependable medicine, and women suffering from these troubles so common to their sex should give it a trial now.

W. N. U. 1571

Attempt Ascent of Mount Logan

Canadian Expedition to Climb Lofthill Peak in Canadian Territory

A Canadian expedition which will attempt the ascent of Mount Logan (19,350 feet) in the Yukon, and the loftiest peak in Canadian territory, is to leave Vancouver now. It will be headed by A. H. McCarthy and Col. W. W. Foster, of Vancouver, and six other gentlemen, including a representative of the English Alpine Club, will complete the party.

Hello Daddy—don't forget my Wrigley's

Slip a package in your pocket when you go home to-night.
Give the youngsters the wholesome, lasting sweet for pleasure and benefit.

Use it yourself after smoking or when work drags. It's a great little freshener.

Instead of holding to her course as Don Miguel had fully expected she would, the Arabella had gone about under cover of the smoke, and sailing now in the same direction as the Milagrosa, was converging sharply under her across the wind, so sharply that almost before the frenzied Don Miguel had realized the situation, his vessel staggered under the rending impact with which the other came hurtling alongside. There was a rattle and clank of metal as a dozen grapeshells fell, and tore and caught in the timbers of the Milagrosa, and the Spaniard was firmly gripped in the tentacles of the English ship.

Beyond her and now well astern the wail of smoke was rent at last and the Hidalgo was revealed in desperate case. She was blinding fast. The attention of her hands was being entirely given to a desperate endeavor to lurch the boats in time.

"I do not number thieves and pirates among my acquaintances"

Of this Don Miguel's anguished eyes had no more than a fleeting but comprehensive glimpse before his own decks were invaded by a wild, yelling swarm of boarders from the grappling ship. For a moment there was a valiant effort by some of Don Miguel's officers to rally the men for a stand against these invaders. But the Spaniards' hastily formed ranks were smashed before they could be steady; driven across the waist to the break of the poop on the one side, and up to the forecabin bulkheads on the other, the fighting resolved itself into a series of skirmishes between groups. Soon, however, the race of that brief fight was spent. The banner of Castile came fluttering down from the mainmast. A buccanier had slashed the halcyon with his cutlass. The boarders were in possession. Suddenly Miss Bishop recovered from her nausea, to lean forward staring wild-

eyed, whilst, if possible, her cheeks turned yet a deadlier hue than they had been already.

Picking his way daintily through that shambles in the waist came a tall man with a deeply tanned face that was shaded by a Spanish headpiece. Up the broad companion to the quarter-deck he came, moving with easy assurance, until he stood before the Spanish Admiral. A crisp, metallic voice, speaking perfect Spanish, reached those two spectators on the poop and increased the admiring wonder in which Lord Julian had observed the man's approach.

"We meet again at last, Don Miguel," it said. "I hope you are satisfied. Although the meeting may not be exactly as you pictured it, at least it has been very ardently sought and desired by you."

(To be continued)

Still Another Advantage

For Smokers

The Vacuum (Air-Tight) Tin—Suits of My Lady Nicotine Will Benefit

By Recent Innovation

Nothing can ever replace the pleasure—the solace—the comfort and enjoyment afforded by Tobacco. But the charm of the leaf is largely the charm of its full rich flavor, and until recently, the perfection of this feature was often marred by the heat of stores and warehouses, especially during Winter, and the dryness of the atmosphere during Summer, which dried Tobacco out, and destroyed its original freshness and fragrance.

The chance of this taking place is now entirely eliminated by the famous vacuum (air-tight) tin. Whether a man smokes cut tobacco, or pipes, or cut it himself as he requires it, or whether he chews tobacco, he can now be assured of securing his favorite brands in the same perfect condition as they left the factory. The richness of flavor, the delicate fragrance, the moisture, are all retained by this wonderful innovation, the famous vacuum (air-tight) tin, which is sure to bring increased enjoyment to all who smoke and all who chew.

The story of how the famous Sir Walter Raleigh first introduced Tobacco to civilization is common knowledge. But the leaf which he and his contemporaries indulged in was crude smoking to the brands enjoyed by smokers to-day. The history of the development of tobacco is a record of a long series of innovations, modifications and devices, all planned to make its use more enjoyable to the consumer. But probably none of these has been so great an improvement from the devotee's point of view, as the famous Vacuum (air-tight) tin, in which the Imperial Tobacco Company of Canada Limited is now packing several of their leading brands of cut smoking, plug smoking, and plug chewing tobaccos.

MAGIC BAKING POWDER
CONTAINS NO ALUM

370,000 Tons of Grain
The Soviet Government has ordered 370,000 tons of grain and 242,000 tons of flour from abroad. There is an acute shortage in several provinces.

A HAPPY CHILDHOOD IS A MATTER OF HEALTH

Little children quickly get out of sorts, but by prompt treatment they can just as quickly be set right again. Most of their troubles arise in the first place from the stomach and bowels; that is why a good clearing out is the first thing the doctor prescribes. Mothers, who may not let Baby's Ova Tablets keep your children well. Unlike that ill-smelling, rank tasting castor oil so dreaded by most children, the Tablets are pleasant to take and their action, though thorough, is gentle and causes no discomfort to either the baby or the growing child. Baby's Ova Tablets are a never failing remedy for relieving constipation and indigestion; thus they break up colics and simple fevers, expel worms and make the teething period painless. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MACDONALD'S MONTREAL

GOVERNMENT TO PROCEED WITH NEW GRAIN ACT

Ottawa.—Many representations coming to the government from the west have suggested the decision to go on with the Grain Act after all.

The government, from the start, favored that course, but a group of members, mainly from Saskatchewan, were persistently asking that it should be deferred until another year, having regard to the importance of the measure. No sooner was it announced that the act would be laid over than the same members demanded that it be proceeded with. However, it is not their fluctuating conduct that has counted so much as representations from many agricultural bodies, as well as the grain trade, urging that the present law, now obsolete, should be replaced by one up to date, and, particularly, that the reforms suggested in the Targoon report should be embodied in the act. This is being done on all the essential lines, including the grading, weighing and mixing of grain, and the operation of private elevators.

The bill will be brought down as soon as the budget is over, and referred to the agricultural committee, with the idea that it be put through before the session ends. If, however, the committee, after fully considering it and giving public hearings, should recommend delay, its report would carry great weight.

Says World's Wheat Supply Not Excessive

Will Be Needed Before Next Harvest
Opinion of Marketing Expert

Winnipeg.—The Manitoba Free Press publishes the following from a staff correspondent in New York:

The whole world price level has been shocked by successive and apparently unwarranted declines in the wheat market until, now, buying confidence is lacking. But a long range view of conditions now indicates acute adjustment of supplies and demand. H. Barnes, internationally known marketing expert, discussing world wheat conditions. After discussing the situation in the various wheat growing countries, Mr. Barnes forecast increasing reliance on North America for weekly supplies, and expressed himself as a firm believer in the relatively small supply of wheat in the world and the fact that it will be all needed before another crop can be harvested.

New Instruments To Forecast Earthquakes

Will Be Installed In Quebec By Federal Government

Ottawa.—Announcement that the Federal Government intends to install new seismologic instruments at St. Anne de Paroisse, Que., for the determining in advance if earthquakes are likely to occur in the Saguenay River district, was made by E. A. Hodgson, seismologist of the Dominion Observatory, in addressing members of the Royal Astronomers of Canada.

Freight Advance Is Delayed

Increased Rate On Canned Goods Has Been Postponed

Washington.—Freight rates advanced on all canned goods, including condensed and evaporated milk, which railroads had proposed putting into effect April 1 between producing points in Minnesota, Michigan, Illinois and Wisconsin and Canadian and eastern consuming points, were held up by the Interstate Commerce commission until July 26. An investigation will be held meanwhile.

Air Hero In Plane Wreck
Nice, France.—Captain Pelletier D'Oisy, hero of last year's Paris-Tokyo flight, and two passengers, were rescued when D'Oisy's plane fell into the sea. The plane was wrecked beyond repair.

Returns to Holland
Berlin.—Princess Irene, wife of the former Kaiser, has returned to Doorn, having recovered completely from a recent operation.

W. N. U. 3571

Ask Advisory Council On Unemployment

Ottawa.—A resolution, petitioning the Federal Government to form an advisory council on unemployment to hold conferences on industrial research before the fall unemployment, was passed at the closing meeting of the two days' session of the national council of women executive here, this advisory council to consist of university economists and labor experts from the various provincial governments and the national council of women.

May Again Discuss Peace River Railway

Possible Two Canadian Reads Will Have Another Conference

Ottawa.—There is a possibility of another conference of Canadian railway men being called to discuss a route for the Peace River Railway. On a question from D. M. Kennedy, Progressive, West Edmonton, in the house, Hon. G. P. Graham said that he would prefer not to give an opinion on the "probability" of an agreement being reached between the heads of the two Canadian railways on the subject until he had a report from them.

"If some suggestion does not come shortly," added the minister of railways, "I think I will ask them to join in another conference to discuss the question again."

Will Not Discard Army Death Penalty

Not Punishment But a Deterrent to Others Says War Secretary

London.—The British Labour Party failed unsuccessfully in the House of Commons to abolish the death penalty in the British army, an amendment introduced by E. Thorne, Labour member, Shoreditch, to the annual army bill, being rejected by 329 to 156. Sir Laming Worthington-Evans, war secretary, declared that only 11 per cent of the death sentences passed during the war were carried out, 89 per cent being quashed or reduced. The death penalty, he declared, was intended less as punishment than as a deterrent to others.

Predicts Opening Of Navigation April 20

Ice Barrier at Head of Lakes Not Breaking Yet

Port Arthur, Ont.—The 18-mile stretch of solid ice which has locked the harbors of Port Arthur and Port William against navigation is beginning to show the effects of the spring sunshine, but it will be some time yet before there is any break in the ice barrier.

Captain Cousins, veteran navigator of this part, does not think navigation will be open to the head of the lakes until April 30. Reports here indicate that the ice field extends as far as Isle Royal, though the thick ice does not go far beyond Thunder Cape.

Canadian Bakeries In Merger

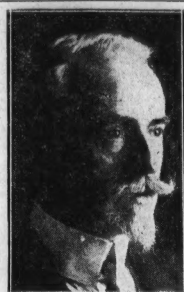

Six Leading Companies Taken Over By New York Corporation

New York.—Six leading baking companies of Canada have been acquired by the Continental Baking Corporation of this city, it was announced through George G. Barber, chairman of the board of the local corporation. The Northern Bakeries, Limited, has been incorporated in Canada, with headquarters in Montreal, and has taken over control of the Canadian companies which operate the bakeries in seven eastern cities.

Zionist Ship Arrives
Jerusalem.—The President Arthur, the first ship to fly the Zionist flag, arrived at Haifa, from New York, the 500 American Jews who made the voyage, attended the opening of the Hebrew University here, at which Lord Balfour conducted the inaugural services.

Pioneer Doctor Dies
Winnipeg.—Dr. R. I. Mattice, 78, pioneer medical practitioner of Winnipeg, died March 31, following a four-day illness from pneumonia. He had been in general practice in Winnipeg for 22 years.

Causes Unrest In Japan

WICKHAM STEED

former Editor of the London Times, who has created anxiety among Japanese by speech on Yellow Peril.

Geophone Used In English Mine Disaster

Instrument Indicated That None of Men Are Alive

Newcastle, England.—Military engineers brought to Chatham a geophone, an instrument constructed on the principle of the stethoscope, in the hope of being able to ascertain from sounds below if any of the 38 miners who were caught in the Montague Colliery by a rush of water several days ago, were alive. Nothing was heard through the instrument, and this was taken by the people of Scoobwood, where the mine is, as confirming their fears that all the men and boys below have perished.

Today was the first time the geophone, which was used during the World War, was applied to a mine disaster.

St. Paul's Cathedral Closed

Work of Repairing Edifice Will Take Six or Seven Years

London.—The people of London have had their last unobstructed view of the interior of St. Paul's Cathedral for probably six or seven years, and on March 31 the last service was held under the famous dome prior to closing the edifice on account of the edifice for the work of strengthening it.

The whole area under the dome, together with the transept choir and Jesus Chapel, will remain closed to the public until the cathedral has been made safe. In the future services will be held in the western end of the nave and St. Dunstan's Chapel.

Nova Scotia Financially Sound

Status Is One To Be Proud Of Says Premier

Halifax.—With the exception of Prince Edward Island and New Brunswick, the expenditures of Nova Scotia for the last fiscal year, \$5,577,872, were lower than those of any other province in Canada, Premier E. H. Armstrong declared in the legislature. The financial status of Nova Scotia, compared with other provinces, was one to be proud of and satisfied with, he said.

Is Champion Wheat Grower

Mr. R. Corbett Mitchell and his wife, of Dalhousie, Sask., who returned to Canada on the Canadian Pacific liner "Montrose" recently. Mr. Mitchell, who holds the title of "World's Wheat Champion" and won this honor three years in succession, has been delivering a series of lectures throughout Great Britain on the advantages Canada offers for the settler.

Consider Refund Of Grain Futures Tax

Winnipeg.—Refunding of the \$30,000, collected as grain futures tax under the act ruled ultra vires of the province by the privy council and plans for meeting the resultant loss of revenue, are under consideration by the Bracken Government. Money collected under the act will be repaid, although the details of the process of making repayment has not been decided. A large proportion of the amount involved is held by brokers, who were awaiting the result of the prolonged litigation as to the validity of the legislation.

Proposes To Settle Mosul Boundary Dispute

Turkey Offers Inducements To Britain In Report

London.—The Daily Mail has reason to believe that Turkey has made a proposal for a settlement of her difficulties with Great Britain, mainly with reference to the Mosul boundary, separating Turkey from Mesopotamia. Turkey's suggestion, the Daily Mail says, is that she shall have the town of Mosul and that part of Mosul province immediately to the south. In return, she does not desire territory further south, which is predominantly Arab, and she promises to guarantee indefinitely the frontier line to the south of Mosul.

The Mosul boundary dispute has its origin in the establishment of the Kingdom of Iraq, formerly Mesopotamia, sponsored by Great Britain. The whole dispute revolved around two main points. Turkey wants Mosul for military reasons and Great Britain insists on having control of the territory, as British interests have large oil holdings there.

Charged With Bombing Plot

Infernal Machine Found in Possession Of Toronto Italians

Toronto.—Following the discovery of a powerful dynamite bomb, a sawed-off shotgun, a handiwork filled with shells, several boxes of cartridges and spark plugs, police have taken into custody Rafael Emiglio, in whose house the stuff was found, and Faustino Manfredi.

Charges have been laid in connection with an affair on March 25, when a bomb exploded near the home of A. Bernardo, who previously had received a letter demanding \$1,500. Failure to pay would mean that his house would be blown up, the letter said, Bernardo, it is said, received another letter on March 25, stating "the explosion was a little one, and a big one will follow if the money is not paid."

Russ-French Parleys

Paris.—Four Soviet experts have arrived in Paris for negotiations of an economic nature with the French government. Leonid Krasin, the Soviet ambassador, has requested the government to set the time and the place for the first meeting.

Many idle in Vienna.—Unemployment in Austria is greater than at any time since the war. Nearly 200,000 now are out of work.

ANXIETY CAUSED BY ACTIVITIES IN JAP SHIPYARDS

London.—While Franco-German relations fill the public eye in European diplomacy, it is understood that British statesmen as well as diplomats give more concern over the development in the Pacific than in Europe. The latter, they are confident, can be controlled, but the former is getting beyond control and the British leaders are now visualizing an early struggle for a white Pacific.

The committee of Imperial conference have been devoting consideration to Pacific problems and reports from secret agents as well as diplomats give cause for grave anxiety. The reports indicate great secret activity in Japanese shipyards with the building of submarines and cruisers.

It is understood that Austen Chamberlain, the British foreign minister, told Frank B. Kellogg, the new United States secretary of state, before the latter left England, that Great Britain, is now convinced that events are now shaping themselves dangerously in the Pacific, and he urged an early arms conference in the hope of checking the Japanese preparations.

Naval interests are showing the keenest interest in the expressed cooperation of United States and British fleets in the Pacific and it is now an accepted fact that they will work together in the future.

Reject Amendment To Medical Act

Alberta Legislature Opposes Proposal of Mrs. Nellie McClung

Edmonton.—Provision for legalizing Christian Science practitioners in Alberta, introduced into the legislature, met with strong opposition, and as a result, the proposal, which was moved by Mrs. Nellie McClung, Liberal member for Edmonton, as an amendment to the Medical Profession Act, was withdrawn, and another amendment will be introduced on the same question at a later date.

The amendment reads as follows: "That nothing in this act contained shall apply to, or affect, those who practice the religious tenets of their church without pretending a knowledge of medicine or surgery, and provided that the laws, rules and regulations to contagious diseases and sanitary matters are not violated."

Dominion Pays Large Sum For Subsidies

Foreign Service Received Bulk Of Expenditure For Mail and Steamships

Ottawa.—The Dominion of Canada has expended the sum of \$46,756,589 on mail subsidies and steamship subsidies from 1867-68 up to the present time. This information was given in the house in answer to questions by N. H. McTaggart, Progressive, Maple Creek.

In answering the question, Hon. A. B. Copp, secretary of state, informed Mr. McTaggart that of the total amount, \$33,062,712 had been paid to foreign services, and \$6,577,653 to local services.

Record Raid By Mounties

Find Counterfeit Money and Press in Quebec Farm House

Montreal.—One of the biggest raids ever undertaken against counterfeiters in Canada was staged by the Royal Canadian Mounted Police at a farm house some five miles beyond L'Assomption, in Grand Paroisse, here, when they seized \$150,000 worth of counterfeit \$10 bills, at least 500,000 cut papers of the same size, ready to be printed, a foot and power driven press of the most up-to-date design, and other paraphernalia, and arrested seven men.

Moisture Greater This Year

Calgary.—During March 14.5-inches of snow fell in Calgary, making the total for the winter 85 inches, in terms of actual moisture precipitation, 6.8 inches. The precipitation last winter, covering the period from October 1 until March 31, amounted to 5.86 inches of moisture, or 58.6 inches of snow.

Making the Town and Rural Home More Attractive With Flowers, Shrubbery and Trees

A bare unattractive house brings no credit to its occupant. If all homes were like those occasionally seen both in town and country places we would be compelled to have our visitors in the presence of visitors from other lands. Why should any home with a bit of ground present a stark uninviting appearance? Few countries can boast of as wide a range of hardy planting material, and where can helpful information and co-operative assistance more easily be obtained? Our experimental farms and agricultural colleges exist to discover for the citizens reliable information on plants and cultural methods, and the horticultural societies stand ready at all times to help those who desire to improve their home surroundings.

One has only to attack the problem of beautifying his place to find assistance on every side, and when once commenced the way opens for proceeding with the undertaking. Whether it be the planting of a hedge, a clump of shrubbery, a hardy border, or a few vines, some thought must be given beforehand, and this is the season for making the necessary plans.

Trees have their place in grounds that are roomy, but other things cannot prosper when trees monopolize the whole space. On the other hand, where tree planting has been neglected and there is space for both trees and smaller ornamentals, some carefully selected varieties should be chosen. Of these there may be many kinds not commonly grown, but when used give distinction to the home, particularly when so placed as to screen unsightly views. A full planting plan needs to make provision for suitable kinds of trees and shrubs and herbaceous perennials as well as their location according to the size of the property and the style and position of the house. A simple, rather than a complex arrangement must be enforced, not only because it is less expensive, but as a rule more pleasing. It is now regarded as a mistake to break up the lawn with flower beds or even shrubs. These had better occupy positions skirting the wall or embellishing a corner, or screening abrupt angles of the dwelling. What is known as foundation planting has become popular. It is done with low shrubs and vines and should be so placed as to appear to tie the dwelling to its surrounding grounds.

Plan To Overcome

Depletion Of Forests

Toronto Dean Has Suggestion Which Would Protect Canada's Timber

Canada's forests, which are said to exceed even the mines in annual production of wealth, and are valued only by wheat as the Dominion's greatest asset, are being wiped out of existence by private greed and destructive fires, said Dr. C. D. Howe, dean of forestry, University of Toronto. "To overcome this great loss," Dr. Howe suggested that the average annual growth per acre, in each district where timber rights are granted, be ascertained, and only the larger trees to an extent not exceeding the annual growth of the timber as a whole per acre, be cut.

Dr. Howe declared that if this plan was made law and strictly enforced, it would mean the present forest wealth of Canada would be immortal, and the capital stock yield a tremendous annual dividend to the end of time.

Canadians Going South

During the seven months ended January 31, 1925, 72,371 Canadians emigrated to the United States and declared their intention of residing there permanently according to figures issued by the United States department of labor in connection with operation of the quota law that became effective July 1, 1924.

Slaves Still Sold in Arabia

The slave trade still flourishes in Arabia, where a state of war exists between the Hashemite family, the former rulers of Mecca, and Sultan Ibn Saud, the Wahabi leader and antagonist of the Hashemites' vested rights to Mecca's holiest city. One of Ibn Saud's first acts after attacking the Hashemites was to free many slaves.

W. N. U. 1071

Jewish Farmers in States

Race Is Not Connected Solely With Mercantile Pursuits

Those persons who habitually think of the Jew as connected solely with mercantile and industrial pursuits must have widened their eyes when they learned from the report of the Jewish Agricultural Society that 75,000 Jews are farming a million acres of land in the United States. It is true that this is not impressive from the standpoint of proportion. Seventy-five thousand Jews are only slightly more than 2 per cent. of the country's estimated Jewish population of 3,600,000, whereas the entire number of persons on the farms of the country is approximately 32,000,000, or 36 per cent. of the total population.

The number of Jewish farmers, however, is none the less significant for its illustration of a tendency. Twenty-five years ago there were only a few hundred in the country. Their number has now increased seventy fold. This movement, moreover, has been running counter to the general idea of the country's population from the farm to the cities.

Historically the Jewish race has been a race of merchants and traders rather than a race given to agriculture. But it may be questioned whether this has been the result wholly of racial temperament and tradition. Prejudice in Russia and in other countries of Europe led to the enactment of laws which prevented a Jew from owning land or even from engaging in agriculture. Under such conditions the Jew was forced to seek a livelihood in other pursuits, and his children, naturally, grew up in those pursuits—New York Herald Tribune.

Prairie Optimism

Says Feeling Is More Pronounced Than Usual This Spring

"Prairie crop prospects are already comparing the present season with spring conditions preceding the bumper crop of 1915," said Charles Murphy, of Winnipeg, general manager of the Canadian Pacific Railway's western line, after an inspection trip through the prairie provinces and British Columbia. "The usual optimistic feeling of Western Canadians is a little more pronounced this spring than usual," Mr. Murphy stated, who attributes this cheerfulness to those promising conditions on the land and to the large amount of money which has been circulated as the result of the high prices received for last year's crop.

Large Sums For Improvements

C.P.R. To Spend \$3,500,000 in British Columbia

Approximately \$3,500,000 will be expended this year in British Columbia by the Canadian Pacific Railway, according to an announcement made by Charles Murphy, of Winnipeg, general manager western lines, after an inspection trip over British Columbia district.

This expenditure will cover improvements for the year throughout the province, extension of trackage and terminal facilities in Vancouver and other upkeeps.

To Make Britain Dry

A new movement to make Great Britain dry is reported by the London Daily Express. A secret conference of 117 delegates, representing 37 prohibitionist and temperance organizations, a few days ago, decided to bury all differences and present a solid front to the enemy. Straight prohibition is not the first aim of the movement, but local option.

With the Majority

"I see that Miss Peach has joined the great majority," said Jones. "What?" exclaimed Brown. "She is dead," he said. "No," replied Jones. "She married a man named Smith."

He Had Vision

"Tommy (in toy shop)—I would like that engine, but I know father won't let me have it. Could you put it away for me until I get the measles or something?"

For a Livestock Pool

Committee Will Investigate Feasibility Of Adopting Plan

The committee investigating the feasibility of a livestock pool for Saskatchewan, have decided to appoint a special committee of three to conduct a preliminary inquiry among the livestock shipping associations in the province. Each point will be visited by the committee.

The committee consists of George Langley, Regina; H. Wright, Drinkwater; and Edward Ryans, Moose Jaw. W. J. Fisher, Tyron, and G. E. Good, Fillmore, were appointed alternatives in the event of any of the members of the committee being unable to serve. W. Waldron, acting markets commissioner, will act as secretary of the committee.

At the suggestion of F. H. Auld, deputy minister of agriculture, it was agreed that the committee of inquiry should gather information regarding hog grading as it affects the pool method of marketing.

If the preliminary inquiry in Saskatchewan warrants the committee proceeding further, the general committee will decide whether or not the committee should conduct further investigations in Manitoba, Alberta, Ontario and in the United States.

On-to-the-Bay

Meeting of Saskatchewan Branches To Be Held in Regina

Representatives of the various branches of the On-to-the-Bay Association in Saskatchewan will be called together at a meeting to be held in Regina as soon as arrangements can be made.

Plans for conducting an aggressive campaign in favor of the early completion of the Hudson's Bay Railway will be discussed at the meeting, and the request of headquarters that a series of lectures be given at various points in Saskatchewan illustrated with lantern slides made from photos taken along the H.B. route—Regina Leader.

Petrified Forest in Nevada

Trees Turned to Stone in Obscure Mountainous Region

That there is a petrified forest, one of the most beautiful in the country, within 40 miles of Tonopah, Nev., is a fact not generally known. More than 100 petrified trees are still standing, just as they grew originally. Little has been written about this forest on account of its inaccessibility.

The unique forest covers several hundred acres. The ground is strewn with fossilized bones of animals, and here and there are small caverns. The entrance to the forest is through a small canyon which widens into a river bed which, in design, reminds one somewhat of the Grand Canyon.

When a man finally succeeds in putting his past life to sleep he's always afraid someone will come along and wake it up.

"Overruling" A 2300

Priscilla Dean, of movie fame, was given the freedom of Yonge Street Station upon the termination of her personal appearance in Toronto. Her seniority was not called into question when she took over the engine and essayed to give one of the giant Canadian Pacific locomotives "the once over."

Status of Agriculture In The Dominion Is Now Decidedly On the Up-grade

Carried Over Wealth

Large Proportion of Western Canada Wheat Yet to be Marketed

The Dominion minister of agriculture says Canada still has 40,000,000 bushels of wheat in the terminal elevators at St. William, with perhaps as much more in storage elsewhere, all waiting for the opening of navigation.

In most seasons it is counted a handicap that a large proportion of Canada's wheat has to be carried through the winter and marketed in the spring following the year in which it was grown. This year is emphatically the exception to that rule. The wheat is worth more now than when it was threshed, allowing for insurance and shrinkage and all incidental carrying expenses.

A country that finds itself with 80,000,000 bushels of wheat left in the granaries when spring comes, and with wheat selling for \$1.75 cents per bushel at Winnipeg, is a country that is a long way from being as hard up as it might be. That carrying-over represents the balance of a crop so large that it could not be marketed last fall, nor profitably cleared out by rail haul during the winter. And it represents a tremendous sum of money to be loose during the spring months as working capital for the coming season's operations—Edmonton Bulletin.

Menace of Weeds

Annual Loss to Western Provinces From Weeds Runs into Millions

A series of conferences will be held in the province during the coming summer to reduce and, if possible, wipe out the annual loss caused to the farmers by noxious weeds. This loss is estimated for Saskatchewan alone at \$25,000,000 a year. A similar figure has been assigned to Manitoba. What the annual loss from weeds in Alberta would probably place the annual loss from noxious weeds in the three prairie provinces at \$60,000,000 at least, or \$20,000,000 in each province—Regina Leader.

Place Found For Floating Dock

A job has been found at last for the former German floating dock which has been berthed in the Mersey since being delivered under the peace treaty. The admiralty has decided to send it to Malta for service in docking the capital ships of the Mediterranean fleet.

Wonderful

"Aren't these chrysanthemums beautiful?"

"Charming—and all such fashionable colors. Isn't Nature wonderful?"

Canadian agriculture experiences its elevations and depressions like any other industry, these fluctuations being possibly more violent and more difficult to anticipate since the state of prosperity of Canadian farming is largely dependent upon world conditions, supply and demand. During the years of the Great War, Canadian agriculture experienced a period of unparalleled prosperity. In the aftermath it suffered a severe slump due to the depreciation of prices for farm products. Just now the status of Dominion agriculture is distinctly on the upgrade again.

According to the last government estimate of the value of field crops in Canada of the 1924 crop, and taking the number of farms as returned at the last census, an average total of \$1,234 went to each farm in the Dominion from this source, or an average of \$1840 in these prairie provinces. According to the government's returns for the previous year, field crops account for only 68 per cent. of the gross agricultural wealth, which would mean that the average Canadian farmer in 1924, \$2,920, or that of the prairie province farmer \$2,930. This is a very fair showing in a consideration that the calculation includes farmers who are merely making a commencement as well as those definitely established, and that the farmer's method of living excludes many expenses incurred by other citizens of the country.

It will be found that despite the various vicissitudes to which Canadian farming is subjected, and the many fluctuations it undergoes, it, at any time, possesses distinct advantages over the same pursuit carried on elsewhere. As a new country, of low priced lands, high soil fertility, and excellent transportation facilities, farming is distinctly advantageous not only to the newcomer who has never farmed before and is given the opportunity of acquiring a farm for the first time, but to the established farmer who finds his opportunities limited and expansion hampered.

Prefers Airplane to Horse

Mail Pilot Has Tried Forced Landings From Both

Experiences in two "forced landings" in the Ruby Mountains of Nevada have convinced air mail pilot Unger that riding a horse is more hazardous than flying an airplane.

Unger was flying a mail plane between Elko, Nev., and Salt Lake City recently when he broke a set of gears and was forced to land in the mountains. A ranchman lent him a horse to ride to the nearest telephone to get assistance. He got there all right, and then started back to his plane.

"If mounted, or started to mount," wrote Unger, "and, as all true western horses do, this one took off in a climbing turn before I got in the seat and had my safety belt fastened. To make a long story short, I over-controlled, her nose went down and I spun, or side-swiped—I don't know which—into the ground with great speed.

"My left ankle broke in two places and I was well shaken up by the forced landing."

The Wife Was Right

Jones and his wife were talking about the remarkable discoveries in King Tutankhamen's tomb.

"Isn't it wonderful, my dear?" said Jones. "They actually found in the tomb couches and chairs 30 centuries old and in good condition."

"Well," replied his wife. "I've always said it pays in the long run to buy the best."

Some people are very literal. A broadshouldered individual, obviously a country squire, entered a well-known hatter's in Piccadilly, London.

An immediate assistant approached him and said, smiling: "And what is your pleasure, sir?"

"The country squire pondered a moment and then made reply: "Fox hunting, chiefly. But what I want now is a hat."

Every month 5,000 children in New York City quit the public schools to start to work.

WORLD HAPPENINGS BRIEFLY TOLD

Mr. and Mrs. John C. Spinks, parents of General Charlton Watson Spinks, Inspector general of the Egyptian army, celebrated their golden wedding anniversary at Victoria, April 7.

A number of persons were killed and many injured when a train on which they were passengers bound for Irkutsk, Siberia, was overwhelmed by a huge avalanche.

A Retford, Nottinghamshire, family, father, mother, daughter, son-in-law, four sons, their wives and 22 children sailed for Canada recently to take up land in Saskatchewan.

The Turkish National Assembly at Ankara has voted an extraordinary credit of 15,000,000 liras for the navy, to be used over a period of five years. It also voted 3,000,000 liras for the air force.

According to information given the special committee of the Alberta Legislature investigating the sale price of beer in the province by Liquor Commissioner E. P. Dinning, the hotelmen operating licensed premises are making a profit of from 150 to 190 per cent.

The balance sheet of the Government of Northern Ireland for the year shows a surplus of revenue over expenditures of £150,000. The figures on the surplus for the previous years of Ulster's existence as a separate state were £47,000, £22,000 and £46,000, respectively.

What is believed would be the largest apartment house in Canada will be erected at the northwest corner of Bloor Street and Bedford Road, Toronto, if the city consents to permit it. The building would be eleven stories high and would contain 600 rooms and bathrooms.

Stomach Distress

MRS. CHAS. TRIMMER

Dear Sir: N.S.—It is a pleasure to me to write a few lines about Dr. Pierce's Golden Medical Discovery. In August 1921 I was taken sick and a doctor was called. He pronounced my case inflammation of the stomach and attended me for about a week, but I was getting worse. My son advised me to try Dr. Pierce's medicine. I did so, and am glad to say in twenty-four hours I was out of bed. I am still taking Dr. Pierce's medicine. I have not had a doctor since. I am feeling well for a woman past sixty. I would highly recommend Dr. Pierce's Discovery to any similar sufferer.—Mrs. Charles Trimmer, Route 1.

Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Hedgesburg, Ont., and sold by all druggists in bottle, tablet and liquid. Send Dr. Pierce 10¢ for trial pkg.

37, N. U. 1972

Planning Mystery Trip

For Giant Submarine

Crew of British Vessel Have Been Sworn of Secrecy

The biggest submarine in the world is preparing for a mystery cruise around the world, according to the Daily Express.

The Express says that the X-1, five times larger than Britain's war-time submarines, is lying at Chatham ready to embark on the cruise. The details of the cruise are as secret as those of the construction of the giant submarine, about which little is known except that it is a giant of its class. One hundred and twenty-one picked officers and men comprise the X-1's crew. These men have been sworn to secrecy about their craft and her approaching voyage.

It is known that the X-1 carries armament that almost would have sufficed for a first line battleship of the pre-war days. The submarine's cruising radius can only be judged from the fact that it is about to start around the world. The vessel is capable of remaining two and a half days below the surface of the water.

Sour Stomach Risings

Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. When the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ill, always keep trusty Nerviline on hand. 35¢ at all dealers.

An Attractive Cape Costume For Girls

Woolen plaids in a small, neat design is used to develop the frock and cape No. 1019. The costume consists of a one-piece dress with short kimono sleeves accented on the shoulders, and panel front of contrasting material. The cape is semi-circular, and is lined with the same contrasting material forming the front panel of the dress. Made in sizes 6, 8, 10, 12 and 14 years. Size 12 years requires 3 1/2 yards of 40-inch material, and 1 1/2 yards of contrasting material for dress panel and cape lining.

The Cruel Pain of PILES

"The cruel pains I endured from piles could only be fully realized by others stricken by this agonising complaint," says Mrs. E. Reid, of Steinburg, Ont. "I thought I must suffer until I died, and despite all treatment was reduced to such weakness that I hardly dared to move."

"Then I heard about Zam-Buk and tried it, and I am thankful to say that this grand herbal balm proved equal to my case—bad as it was. I am now well, can do a good day's work with ease, and am free from the trouble which for years rendered my life one long agony. I shall never tire of recommending Zam-Buk."

Also for itching pimples, psoriasis, rash, boils, bad legs, cuts, burns, etc.

50¢ box, 1 for \$1.25. All druggists.

Quickly SOOTHES & HEALS

Air Travel Costly For Some People

Passengers On Liners May Be Charged By Weight

Fat men are much concerned over an announcement made by Dr. Hugo Eckener, who piloted the ZR-3 (now the United States Navy dirigible Los Angeles) from Friedrichshafen to Lakehurst, N.J., that passengers on the air liners of the future would be charged according to weight.

Dr. Eckener made the statement in a lecture before the Royal Aeronautical Society, explaining that for the ordinary voyage from London to New York the charge per passenger would be about one pound sterling for each pound of flesh.

HAD BAD SPELLS WITH HER HEART

Mrs. C. Martin, R.R. No. 2 Orillia, Ont., writes: "I have been troubled with my heart for a long time and very often had bad spells with it. I would take fainting spells, and my husband had to have somebody to stay with me all the time. He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

MILBURN'S HEART AND NERVE PILLS

My husband went and got me two boxes, and after the first one was finished I felt like a different woman. I cannot recommend them enough to all those who suffer with anything wrong with their heart or nerves. Milburn's H. & N. Pills have been on the market for the past 30 years and are put up by The T. Milburn Co., Limited, Toronto, Ont.

"All druggists handle them."

The dog with the handsomest collar doesn't always put up the greatest fight.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Lancashire Magistrate: Why do you not control your wife? Husband, lugubriously: A man can be a lieutenant-general in the army, but only a general lieutenant at home.

Sample Soap Free by Mail. Address: Canadian Agents, The Cuticura Sales Co., 1001 St. James St., Montreal, P. Q. Try our new Shaving Stick.

Bovril Advertised More And Earned Larger Profits

The statement presented a few days ago to the shareholders of Bovril, Limited, at their 28th annual meeting, held in London, show gross profits of £638,125, as compared with £271,493 for the previous year; net £250,592 against net £251,898.

Both the volume of business done and the net profits earned are records, and the amount spent in advertising was also the largest in the company's history.

How successful Bovril has been in its advertising may be gleaned from an incident in the British House of Commons last spring when Sir Robert Horne, an ex-chairman of the exchequer, said:

It did not require any second sight to visualize the leader of the patient oxen in the immediate future gazing somewhat mournfully on his dead brethren, and, in the words of a famous advertisement, muttering, "Alas! my poor brethren."

Advertising is largely responsible for the increased output, and Bovril thus affords a very striking example of how the consumer benefits directly from the judicious use of Printer's Ink.

Presiding at the annual general meeting of the Bovril Company, Sir George Lawson Johnston (chairman) emphasized the necessity for making life sufficiently attractive and remunerative to the primary food producer in newly-developed countries to induce him to stay on the land.

Town life, with all its attractions of cinemas, theatres, electric light, evening papers and a host of neighbors to gossip with, was drawing the younger country cousins to the towns in these countries, just as it was doing at home.

Of those who went from the cities of Europe to the land in Canada, three-quarters eventually drifted back to the cities of that Dominion, where they were not particularly required. Probably only those who knew the country-side, the wild flowers, the trees and the birds, and loved a bit of real country sport, could get strongly attached to a new lonely spot many miles away from any city.

Yet the country districts were often the life-blood of the whole—the cities merely the bottle-necks through which the good things grown and paid and sold.

Agricultural and pastoral producers must keep in mind that Europe could only buy out of income derived in part from the sale of manufactures to the produce-selling countries, and that the European consumer could not afford a high range of prices. An excessive price for wheat meant privation, possibly starvation in Europe, and dear meat must eventually lead to reduced consumption.

Bovril Limited controls vast cattle estates in the Argentine and in Australia, and thus secure the beef for Bovril at minimum cost. It is this fact, added to the constantly increasing demand for Bovril which has enabled the company to maintain its pre-war prices and yet in the face of most difficult trade situation and the payment of very heavy taxes, show record sales and record net profits.

The year just closed showed gross profits of £439,125, net £250,592. The capital employed is between twenty and twenty-five millions of dollars.

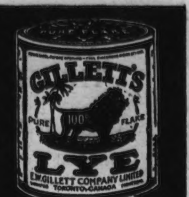

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half-way measure about this remedy. It goes right to work and drives asthma out. It reaches the most breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Queer Fish in Sargasso Sea. Dr. William Beebe, dredging the Sargasso Sea, reports taking some queer fish. One has four legs and long wavy hair. Another has eyes that protrude like periscopes upon the freckled submarine. A third propels itself with hands instead of fins, presumably using the Australian crawl stroke.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

in the Kitchen

Try a small portion of Gillett's Pure Lye in the dishwasher when cleaning greasy pots and pans. It will save you much hard labor.

MADE IN CANADA

Receives Gold Medal

Charles Saunders is Honored by Royal Society of Canada

At a recent meeting, the Royal Society of Canada, with the consent of the council, awarded a gold medal for outstanding achievement in literature or science to Charles Saunders for his discovery and development of Marquis wheat. The propagation of this grain has added millions of dollars to the pockets of farmers in Canada and the United States, and has been primarily responsible for the outstanding position of the Dominion in the production of grain.

Local and General

The Work Party of the Ladies Aid will meet at the Home of Mrs. Nicholson, on Friday, May 1st.

The Directors of the Agricultural Society want every man, woman and child within a radius of twenty miles and then some, to keep July 1st and 2nd clear, so they can see the finest Baseball, Stampede and Horseracing and other sports Crossfield has ever had.

The Crossfield Sports Days are on July 1st Dominion Day, and July 2nd.

According to the programme we have seen, they will be two of the finest if not the best we have ever had in Crossfield.

The Baseball Club re-organized on Monday, and with the splendid material the manager has lined up we should have a real classy team when the umpire calls. Play Ball!

All members of Justice Rebekah Lodge No. 62, are requested to meet in the lodge room on Sunday, April 26th at 2 p.m. for the purpose of accompanying the I.O.O.F. Lodge to their anniversary service at the Union Church.

The regular monthly meeting of the Women's Guild will be held at the home of Mrs. S. Willis, on Thursday, May 7th.

The Gyro Tuxis Boys of Crossfield and district, who re organized some months ago and who have been practising for a Nigger Minstrel Show during that time, have now set the date of their Show for Friday, May 8th.

The proceeds of this night will be in aid of the elder boys work in the district and although nothing has as yet been decided upon, it is the intention of the "Square" to disburse the funds in athletic equipment and to have a good start for next session's work.

It is needless to comment here on the good work that is being done through Tuxis work throughout this Province and the Dominion.

The boys are working hard for a very successful night and we are quite confident that none who enter the Hall on this night will be disappointed.

We now take this opportunity of wishing the boys all kinds of luck in their venture and trust they will meet with huge success at this, their initial performance of their re-organization.

NOTICE

Crossfield Lodge I.O.O.F. No. 42 will hold their Anniversary Service in the Union Church, on Sunday, April 26th, at 8 p.m.

All Oddfellows in the district are cordially invited to attend, meeting at the Hall at 2 p.m.

J. L. McRory,
Rec.-Sec'y.
